

PROJECT  
**SERVATOR**

# Together, we've got it covered

Security operations like this help to keep you safe. You will see them across the airport network regularly – they can happen anywhere and at any time. Today's operation is designed to disrupt a range of criminal activity.

Just come and chat to us if you have any questions or concerns.

## Together we've got it covered

We use a range of visible and less visible security measures to keep you safe. Here's an introduction to some of them.

### Uniformed officers

Feel free to talk to our officers about today's operation. They will be happy to answer questions about what we are doing and why.

### Search dogs

Our dogs are highly trained. They can search for things that could put others in danger.

If you see or hear anything that doesn't feel right, speak to one of our officers, or call us on **101**.

In an emergency always dial **999**.

### Plain clothed officers

They may be hard to spot, but they keep an eye out for people seeking to avoid our checks.

### Searches

Officers have a range of powers they can use to stop and search vehicles and individuals.

### CCTV

Specially trained staff in our control rooms help us identify suspicious activity in real time.

### Other checks

We also use other security measures that may not be visible.
